Shall focus on the practical application of law and it's enforcement.

I have a request that college should organise law fest 2 times in a year

Great going

Need too much improvement.

We need some practical knowledge about court otherwise teachers are best in the college they are very cooperative

There is need to revise the whole syllabus.. as many important subjects are in option they must be compulsory and inclusion of new laws that are important in our law profession like pocso, arms act, ndps..

Give students better internal for their results

Noice

Moot class should be made a part of the normal timetable and its timings should not be that of an extra class

Practical classes of civil laws and court vists should add on in college for more effective and interactive sessions

neutral or some bad results are here due to some past activities

Nope

More moot classes and practical exposure to each student so that they can know their work areas 😊rest is good

All the lectures and practicals are fruitful and knowledgeable.

Focus of curriculum shall be towards more practical knowledge rather than theoretical knowledge

Offering more workshops or seminars on professional skills such as legal writing, research, and advocacy could further enhance students' preparedness for their legal careers could be started.

All okay

Curriculum is good

Suggestions: 1. Strict implementation of Uniform discipline is required especially during examinations & final semester students. 2. Atleast one month college sponsored internship is required per year. 3. Revision of classes' schedule. Comments/Feedback: 1. Overall environment of institution is student friendly. 2. Teaching faculty is excellent.

Moot classes to be conducted with proper practice.

Need improvement

Moot classes should be more.....

Needs to improve their infrastructure and solve their sanitation problems

Syllabus must include some more important subjects of law

No need.

There is an urgent need to update the syllabus as per present requirements in the field of law. Some emerging and relevant laws such as NDPS Act, POCSO Act must be made part of the courses.

The course outcome is designed very well but some more Acts must be included in the syllabus like NDPS

More reading materials for language can be add.

The content covers major aspects of the course but in addition to theory, practical aspects are also important for the structure to be more strong.

All over experience very good

College adequately prepared to find a good job for the students!
